Grade: 9

School: Immanuel Lutheran College

Save Our Beautiful Earth!

Contours of green  
Blanket the earth  
A mesmerizing environment  
In a cosmic universe

In a thick, dense forest  
Lay a red and white can  
Tolerated by nature  
Made by man

Nearby is a stream  
That once flowed day-and-night  
Obstructed by litter  
How could this be right?

It is palpably crucial  
That we take action fast!  
Tell your family, your friends  
To protect this earth, so awesomely vast!
