

# The Can

All the landscape around us is very beautiful  
But underneath a gum tree there is a bright red  
can

A couple of metres away from it there is a big  
wide dam

The rain comes down and hits the ground  
There is no one around

The rain washes the bright red can  
down into the big wide dam

Suddenly a girl comes out  
and picks the can out without a doubt

Now underneath the gum tree  
it's as clean as can be.
