You're making the Wrong choices

Why do you litter?
It's wrong but you ignore that
So why don't you change?
Just because you're that way.
There are others who give applause,
To people who fight the cause.
But there are still those who don't care,
Because they aren't aware.
It's also the cause of animals dying,
Eating garbage and not realising.
I would like to change the problem,
And if we each play a part,
We could all make a difference together.
Who knows, we may even change the weather.

Thank you for listening I hope this helps.
